

SANITARY DISTRICT OF DECATUR, ILLINOIS

501 DIPPER LANE * DECATUR * ILLINOIS * 62522

SITE PLAN REQUIREMENTS

Show:

1. All site plumbing including the location of all sanitary, storm and combined sewers, drains, clean-outs, manholes and pipes. Include all pipe sizes (and manhole invert elevations where known).
2. The locations of all wastewater-generating processes.
3. Liquid storage sites (chemicals, oil, fuel, liquid product in excess of one 55 gallon drum, etc.)
4. Sampling locations. (Show all locations where samples of the wastewater may be collected for analysis).
5. All paved surfaces. Include the location of all manholes and surface drains.
6. Location of taps to a sanitary or combined sewer (all points where the facility is tied to a sewer that discharges to the Sanitary District of Decatur's wastewater treatment plant).
7. All buried liquid transfer lines (such as but not limited to fuel and oil transfer lines).
8. Specify the exact location of all City water meters that feed the facility and any sources of well water.
