

POLICY MEMORANDUM

Date: August 19, 2009

Subject: Recreational Vehicle Sewage Dumping

It is the policy of the Sanitary District of Decatur (SDD) to allow residents of Macon County to dump the contents of their recreational vehicle (RV) waste tank into the SDD sewerage system only at discharge points designated by the SDD and only if the waste tank contains only the typical RV waste. The SDD will accept the local resident's RV sewage free of charge. Notice should be made to an authorized employee of the SDD prior to dumping the RV waste.

RV waste from non-residents visiting Macon County may be accepted by the SDD, if SDD personnel determine that the waste is strictly domestic in nature, and the RV owner may be charged a nominal fee for disposal of the septage.
