Labor Management

Labor Management meeting was held on November 7. Topics covered included the CDL Training program, On-Call Policy, Health Insurance, Open Positions and the Paid Leave for All Workers Act.

Investment Summary

Financial Summary as of 10/31/23

- Cash balances, all funds \$ 28,359,457.04
- Investment balances, all funds \$ 58,557,344.50
- Operation revenue is more than expense by \$ 7,569,894.87 and total revenue is more than expenses from all sources by \$ 7,101,430.00.

2023 Property Tax Levy

The proposed property tax levy remains unchanged from the estimate provided in September. The overall levy request will increase \$363,496 to \$4,315,000. The Sanitary District portion of the tax bill for a homeowner of the average valued home in the District is projected to increase \$5.49 to \$77.48 per year and increase \$7.77 to \$101.03 per year for a home with a market value of \$100,000.

Because aggregate taxes excluding the debt service levy are projected to increase less than the 5% limit, the truth in taxation procedures were not required.

Personnel

The I&C Supervisor position is being returned to a manger level position and retitled to Information Systems Manager. Jamey Oliver has been promoted to this position. He will supervise the I&C department and the two information systems positions. We will be advertising the Systems Integrator position on a wider basis than normal because of the specialization required.

After discussion with the Operation Department leadership, we are planning on hiring another operator with the goal of maintaining nine operator positions after Matt McElroy retires. This will allow us time to fully train a new operator in anticipation of future retirements and the potential of additional staffing requirements for nutrient removal. This will continue to be evaluated in the future as there is turnover in staff.

****SAFETY COMMITTEE MEETING MINUTES****

The Safety Committee met on Thursday, November 9, 2023. In attendance were Steve Doolin, David Cunningham, Latishia Greve, Ean Watson, Kyle Stewart, Kent Newton, and David Boys. The Sanitary District has worked **1938** days without a lost-time accident and **926** since the last recordable injury as of this date.

The committee discussed the following items concerning the SDD facility:

- The Safety Department would like to remind all employees that cold weather gear is available in the safety office for use. Ice cleats, insulated caps and gloves are available on request. Employees are reminded to be aware of cold weather hazards such as freeze/thaw conditions that could cause ice buildup on walkways. Also, employees need to be aware of the potential of overhead hazards around rooflines. Icicles, snow, or sheets of ice can be expected to slide off roofs during the winter months. Employees are encouraged to avoid walking directly below overhanging roofs.
- Walking working surfaces will be a primary concern during cold weather. All employees are reminded to be aware of slip hazards and to report areas that need snow/ice removal to the groundskeeper or the maintenance department.
- Vehicle Accident: Employee in a District vehicle struck in another District vehicle in the parking lot behind the admin building when turning sharply and scraped the front bumper.
- A loud noise was heard in the area of a control panel for heat exchanger #3 while employees were working on other equipment in building 105. Upon inspection the control panel door was found to be damaged. I&C shut off power and performed an inspection. Other than the deformed door no damage or evidence of combustion was found. It appears that the panel filled with digester gas from a failure of the main gas line control valve sitting below panel through a wiring conduit. Seal offs were added to each conduit entry that sits near the gas lines on all four control panels. The gas valve was found to have a failed Oring. This was replaced by maintenance and the other three control valves were inspected.
- Reviewing the District emergency notice, response and evacuation plans at a future meetings was a discussion point.
- Our medical provider conducted audiograms and fit testing last month on site for our employees. No follow-up tests were required.
- A new fermenter tank is soon to be in service. It was noted that the first step of the ladder to get to the top of the tank was difficult to navigate. We met with the contractor to rework the ladder for easier access. Lighting in the area will be evaluated after dark to verify that samples can be obtained safely at night.
- Land application has begun. Please be aware of increased activity at the Wyckles facility and take caution when driving into and out of the facility.
- We are investigating fall protection tie off points for access to the top of the tanks in the bleach building and potential changes to the seasonal shut down process.
- Snow removal training for newer employees will take place next week. We want to make sure our snow removal crew has all the tools and training they need to keep employees and equipment safe.

Next month's safety meeting will be held on 12/14/2023 at 2:30 p.m. If you have any questions or suggestions, call me @ EXT: 237 and thank you for your continued efforts in safety and health. Together we will provide a safe workplace if everybody accepts that **SAFETY IS EVERYONES RESPONSIBILITY.**
